As Japan’s foremost museum in the humanities field, Tokyo National Museum collects, preserves, manages, and displays cultural properties from across Japan and other Asian regions, while also conducting research and providing educational programs.

ZENIYA Masami
Executive Director
Tokyo National Museum

The Tokyo National Museum was established in 1872, making it the oldest museum in Japan. We collect, preserve, restore, and display a large number of National Treasures and Important Cultural Properties as well as around 120,000 tangible cultural properties, mainly from Japan and various Asian regions. We also conduct surveys and research in addition to providing educational programs on them.

The Museum is working to develop more appealing comprehensive cultural exhibitions by holding seasonal events in addition to its display of collected and preserved works. We also run school programs, guided tours, workshops, and various other programs that help participants appreciate cultural properties while becoming more familiar with and further understanding them through, for example, art-making experiences.

Additionally, as Japanese culture attracts global attention, we will play a central role in disseminating it to the world and will strive to become a more appealing museum. To this end, we are formulating and implementing the TNM Plan for a New ERA with the goals of promoting easy-to-understand exhibition commentary and multilingual support as well as creating a comfortable viewing environment.

We will continue in our efforts to make the Tokyo National Museum more enjoyable for everyone, including children and adults, as well as visitors from around the world.

Exhibitions

Regular Exhibitions
The regular exhibitions comprise the core function of the museum’s exhibition activities, displaying works from the museum collection as well as objects on loan to the museum. Exhibits are rotated periodically, with an approximate total of 400 rotations annually. The regular exhibition galleries are as follows:

HONKAN (Japanese Gallery): The 2nd floor provides an overview of the history of Japanese art in chronological order from the Jomon to the Edo period. The exhibits on the 1st floor are categorized by genre and include sculptures, ceramics, and swords.

TOYOKAN (Asian Gallery): This building is dedicated to artworks and archeological artifacts from China, the Korean Peninsula, Southeast Asia, Central Asia, India, Egypt, and other regions.

HEISEIKAN: The Japanese Archaeology Gallery located on the 1st floor displays objects, such as dogū and haniwa clay figurines as well as bronze bells, dating from the Paleolithic through to the Edo period; the Thematic Exhibition Room, also on the first floor, is used for thematic and educational displays.

The Gallery of Horyuji Treasures: This building exhibits objects selected from over 300 cultural properties donated to the Imperial Family by Horyuji Temple in Nara.

HYOKEIKAN: This building has been used for special exhibitions and special events in recent years.

Kuroda Memorial Hall: This building was built through a bequest from one of the most renowned painters of modern Japan, Kuroda Seiki, and is used to exhibit his works.

Thematic Exhibitions
Thematic exhibitions focus on specific themes and are held as part of the Museum’s regular exhibitions. The following are examples of those scheduled for fiscal year 2021 (the dates given are tentative):

• Nachi: The Hidden Treasures of a Sacred Land (June 8-July 18, 2021)
• The Noh and Kyōgen Masks of Kasuga Shrine in Seki (July 20-September 26, 2021)
• Chinese Paintings and Calligraphy Imported to Edo Japan (tentative) (September 7-October 17, 2021)
• Buddhist Sculptures from Sensōji Temple (tentative) (September 28-December 19, 2021)
• History Lessons from the Roof Tiles of Tōdai-ji Temple (October 19-December 12, 2021)
• Southern Chinese Ceramics that Swept Japan (tentative) (December 21, 2021-February 20, 2022)

New Year’s Celebration at the Tokyo National Museum: Year of the Ox (January 2-31, 2021)

Special Exhibition KIMONO: Fashioning Identities (June 30-August 23, 2020)

Special Exhibition, Momoyama: Artistic Visions in a Turbulent Century (October 6-November 29, 2020)
Special Exhibitions

Special exhibitions are held to share the results of our research and to meet visitor interest. The following are examples of special exhibitions scheduled for the fiscal year 2021:

- **Special Exhibition, National Treasure: Frolicking Animals (April 13–June 20, 2021)**  
  This exhibition was temporarily suspended from April 25 to May 31.
- **Special Exhibition, Sacred Treasures from Ancient Nara: The Eleven-Headed Kannon of Shōrinji Temple (June 22–September 12, 2021)**
- **Special Exhibition, The 1400th Memorial for Prince Shōtoku HORYŪJI Prince Shōtoku and Treasures of Early Buddhist Faith in Japan (July 13–September 5, 2021)**
- **Special Exhibition, Commemorating the 1200th Anniversary of Saichō’s Death Buddhist Art of the Tendai School (October 12–November 21, 2021)**

Acquisition, Conservation, and Restoration

The Museum seeks to create a comprehensive display of Asian cultural properties with a focus on Japan through the acquisition of works of art by purchase, donation, and loan. We also carry out a variety of collection management measures to allow deteriorated objects to be safely exhibited in the future. These measures include enhancing gallery and storage environments, improving display and transportation methods, conducting collection assessment, as well as performing about 40 full restorations and 250 emergency treatments of works annually.

Education

To provide a better museum experience for visitors, we offer opportunities for as many people as possible to get to know the museum, and we help them to develop a deeper understanding of Japanese and Asian culture. By collaborating with schools and developing educational activities, we strive to establish a pioneering model for engaging museum projects while promoting effective educational programs that reflect our role as a leading museum in Japan.

- Providing learning opportunities
  - Gallery talks, seminars, lecture series, workshops, and “behind the scenes” tours introducing the Museum’s preservation and restoration work, and other exhibition-related events.
- Educational and thematic exhibits called “Family Galleries”
- Collaboration with schools
  - School programs (art appreciation programs, work experience programs, and programs for visually impaired students)
  - Teacher training (in relation to Special Exhibitions and Regular Exhibitions)
- Partnerships with universities
  - Campus Members System and internship programs for graduate students
- Volunteer activities
  - Assistance for educational activities, visitor information, and guided tours

These activities may be changed or cancelled due to COVID-19.

Research

We conduct research on cultural properties originating in Asia, with a focus on Japan. Research outcomes are reflected in the museum’s collection, and in our collection and exhibition activities. Research is partially supported by Grants-in-Aid for Scientific Research and other grants for cultural activities. Research conducted in fiscal year 2021 includes the following:

- Special research projects on the treasures of Horyu-ji Temple donated to the Imperial Household in 1878, including calligraphy, decorative arts, sculpture, paintings, and artifacts
- Research on cultural properties at temples and shrines in the Kanto region
- Research on eastern peoples and eastern archeological materials
- Joint research on the composition of silk and dyed textile used in arts and crafts
- Research related to “Nachi: The Hidden Treasures of a Sacred Land” and other Thematic Exhibitions

Brief History

1872: Opened as the Museum of the Ministry of Education, on the occasion of Japan’s first public exposition held by the ministry in the Yushima Seido, Tokyo.
1875: Transferred to the Ministry of the Interior. The museum had eight exhibition categories at this time: natural products, agriculture & forestation, industrial technology, art, history, education, religion, and army and navy.
1882: Moved to the present location, a site formerly occupied by the headquarters of Kan’eiji temple.
1889: Reorganized as the Imperial Museum under the supervision of the Imperial Household Agency.
1900: Renamed the Tokyo Imperial Household Museum.
1903: Hōzekkan opened.
1923: Former Honkan building destroyed in the Great Kanto Earthquake.
1925: Natural history collections transferred to the Tokyo Museum of the Ministry of Education (present-day National Science Museum) and other institutions.
1938: Present Honkan building opened.
1947: Transferred to the Ministry of Education and renamed the National Museum.
1952: Renamed the Tokyo National Museum.
1964: The Gallery of Horyuji Treasures (inaugural building) opened.
1968: Affiliated with the Agency for Cultural Affairs. Toyokan opened.
1984: The Shiryokan (the Research and Information Center) opened.
1988: The Gallery of Horyuji Treasures (current building) and Heiseikan opened.

Outline of the National Institutes for Cultural Heritage, 2021
The Kyoto National Museum collects, preserves, manages, and exhibits cultural properties, while also conducting research and educational activities. It focuses on cultural properties from the Heian period to the Edo period, a time when Kyoto was the capital of Japan.

Kyoto prospered as Japan’s cultural center for over a thousand years, from the relocation of the capital in 794, which marked the beginning of the Heian period, right through to the Meiji Restoration in 1868.

Kyoto National Museum was established in 1897 (Meiji 30) in Higashiyama, Kyoto, an area steeped in these traditions. Since then, while functioning as a core institution for the preservation and transmission of Kyoto’s tangible cultural properties, the museum has also worked to disseminate the value and appeal of Japan’s traditional culture to a wide audience, both nationally and internationally.

We constantly strive to maintain a high level of activities, even during these difficult times. While deepening our response to globalization and the spread of information technology, we endeavor to serve as a center for schooling and lifetime learning, a nexus of exploration and creativity, a place of leisure, and a hub of domestic and international tourism. In this way, we hope to build strong roots with the local area while also being a museum that can be appreciated and enjoyed by everyone.

Exhibitions

- **Collection Galleries**
  The Collection Galleries in the Heisei Chishinkan Wing, which opened in September 2014, include thematic galleries for ceramics, archeological relics, paintings, calligraphy, decorative and applied arts, and sculpture. The galleries showcase some of the finest pieces from the museum’s 14,000 items (including items on long-term loan), and enable visitors to experience some of the most outstanding examples of Kyoto’s unique cultural heritage. The items on display are changed periodically, so visitors can expect to see different items on subsequent visits.

- **Exhibitions**
  - The exhibition dates are subject to change.
  - Priest Gyōnen 700th Memorial Special Exhibition: The Buddhist Legacy of Jianzhen (Ganjin) and His Successors (March 27 - May 16, 2021) ※This exhibition was temporarily suspended from April 25 to May 11
  - Special Exhibition: National Treasures of Kyoto: Preserving the Cultural Heritage of Japan’s Ancient Capital (July 24 - September 12, 2021)
  - Special Exhibition: Masterpieces from the Hatakeyama Memorial Museum of Fine Art: Noh, Chanoyu, and Rinpa (October 9 - December 5, 2021)
  - Feature Exhibition: Olympia Meets Japanese Art (June 5 - July 4, 2021)

※Please note that due to the current closure of Meiji Kotokan (Main Hall), the Heisei Chishinkan Wing is being used alternately for both Special Exhibitions and Collections Exhibitions.

Collection, Preservation, and Restoration of Cultural Properties

Since the museum’s establishment, numerous treasures from historical temples and shrines have been entrusted to the Kyoto National Museum. Meanwhile, the number of cultural properties in the collection has increased yearly through purchases and donations, with a focus on art or archaeological items related to Kyoto culture. These cultural properties must be restored and preserved appropriately so that they may be enjoyed and appreciated by future generations. The Conservation Center for Cultural Properties, the first comprehensive conservation facility for cultural properties in Japan, was established in 1980 to meet that need.
Educational Activities

We undertake a variety of activities via our exhibitions, websites, and outreach to schools, in order to help people learn more about the museum's exhibitions and collections, and to stimulate interest and concern for cultural properties.

Activities held to enhance understanding of exhibition contents and exhibits
- The museum holds various lectures and seminars including the Saturday Lectures and Commemorative Lectures. It also operates the “Museum Cart” hands-on experience booths (staffed by “Kyohaku Navigators” volunteers), and implements various types of workshops, as well as distributing museum guide brochures, explanatory sheets, and the “Museum Dictionary.” It also loans audio guides for juniors, etc.

Activities held to stimulate interest in cultural properties
- The museum organizes summer lectures, symposia and other lecture events, as well as arranging visits to elementary schools and junior high schools in Kyoto by “Cultural Property Sommeliers” making use of high-resolution digital reproductions of important works of art (Cultural Properties School Outreach Classes), and organizing workshops in locations outside the museum.
- The museum works closely with educational institutions, organizing collaborative events.
- Collaborations between the museum and the university sector includes: the Campus Members System; the giving of lectures on historical, cultural and sociological topics by our curators at the Graduate School of Human and Environmental Studies, “Kyohaku Navigators” the training of “Cultural Property Sommeliers”; support for teaching through the use of replicas; the holding of art appreciation events; and the holding of workshops for educators.
- Support for volunteer activities
- Implementation of the “Kyohaku Navigators” and “Cultural Property Sommeliers” systems, and training of “Kyohaku Navigators” and “Cultural Property Sommeliers” volunteers.
- These activities may be changed or cancelled due to COVID-19.

Research

Since 1979, the museum has been implementing an ongoing, comprehensive survey of cultural assets owned by old temples and shrines in the Kinki region of Japan, centered on Kyoto. The results of these activities are published in our “Kyoto National Museum Shrine and Temple Inventory Reports.” The museum also continues to undertake research on its collections; the research results are reflected in the museum’s displays and published in the Kyoto National Museum Bulletin.

Other Activities

A variety of special events are held to encourage more people to visit the Museum.

Rakugo at the Museum
Kyoto National Museum has launched the “Rakugo at the Museum” project, whereby performances of Rakugo (traditional comic storytelling, which originated in Kyoto and is an important aspect of Japanese traditional culture) are held on a regular basis.

Brief History
1889: Established as the Imperial Museum of Kyoto under the supervision of the Imperial Household Agency Ministry
1897: First exhibition held (May 1)
1900: Renamed as the Imperial Household Museum of Kyoto
1904: Donated to Kyoto City; renamed as the Imperial Gift Museum of Kyoto
1952: Transferred to the national government; renamed as the Kyoto National Museum
1966: Establishment of the Collections Hall
1968: Affiliated with the Agency for Cultural Affairs
1969: The Special Exhibition Hall, Main Gate, ticket booth and fences are designated as an Important Cultural Property under the name of the Former Imperial Museum of Kyoto
1973: The Saturday lecture series starts
1980: The Conservation Center for Cultural Properties established
1997: A special ceremony was held in October to mark the 100th anniversary of the Museum’s founding
2000: The South Gate constructed as part of the 100th Year Anniversary Hall construction project (tentative name)
2001: The South Gate constructed as part of the 100th Year Anniversary Hall construction project (tentative name)
2007: Integrated into the Independent Administrative Institution National Institutes for Cultural Heritage, as Kyoto National Museum
2009: Reconstruction begins on the former Collection Hall
2011: The South Gate constructed as part of the 100th Year Anniversary Hall construction project (tentative name)
2013: Construction of Heisei Chishinkan Wing (new Collection Hall) is completed in August
2014: Heisei Chishinkan Wing is scheduled to open in September
2017: A special ceremony was held in May to mark the 120th anniversary of the Museum’s founding

Outline of the National Institutes for Cultural Heritage, 2021
The Nara National Museum collects, preserves, manages and displays cultural properties, while also conducting research and providing educational programming. Its focus is on Buddhist art and the cultural properties of Nara.

Since its opening in 1895, with the support of temples and shrines of the Nara region, the Nara National Museum has been engaged in collecting, preserving, and conducting research and offering educational programs on cultural properties with a special focus on Buddhist art. Through these activities, the museum has introduced to the public the high artistic value and historical background of Japanese Buddhist culture, unique for its syncreticism with indigenous beliefs. Keeping in mind that various cultural properties are tied together in an organic whole with the historical and cultural landscape of Nara, we aim to reach a wide range of people as a conveyor of Nara's culture. To this end, we strive to promote the museum's international activities and a more effective use of information technology.

**Exhibitions**

**Buddhist Art Exhibitions**

In addition to holding special exhibitions and feature exhibitions, the museum also displays renowned masterworks of Buddhist art including many designated as National Treasures and Important Cultural Properties. The Nara Buddhist Sculpture Hall features "Masterpieces of Buddhist Sculpture", exceptional Buddhist statues representative of the history of Japanese sculpture from the Asuka to the Kanshū period, dating from around the seventh century to the mid-fourteenth century. The Ritual Bronzes Gallery connected by a corridor features fine works of Chinese ancient bronzes. The West Wing houses "Masterpieces of Buddhist Art", which introduces the essence of Japanese Buddhist art through selected items of painting, decorative art, calligraphy and artifacts. In addition, thematic exhibitions from the permanent collection are occasionally held for themes that lie outside a specific genre.

**Feature Exhibitions**

- Feature exhibitions are medium-scale exhibitions organized to explore a specific theme.
- Treasures of Todaiji’s Omiyutori Ritual (February 5–March 27, 2022)

**Special Exhibitions**

- Special Exhibitions are subject to change.
- Special Exhibition, The 1400th Memorial for Prince Shōtoku HŌRYŪJI Prince Shōtoku and Treasures of Early Buddhist Faith in Japan (April 27–June 20, 2021)
- Special Exhibition, Buddhist Art Paradise: Jewels of the Nara National Museum (July 17–September 12, 2021)
- The 73rd Annual Exhibition of Shōsō-in Treasures (Fall 2021*) *Dates TBD
- Special Exhibition, Sacred Treasures from Ancient Nara: The Eleven-Headed Kannon of Shōrinji Temple (February 5–March 27, 2021)

**Collection, Preservation, and Restoration of Cultural Properties**

We strive to collect tangible cultural properties, which are valuable assets for the people of Japan, through purchase, donation and loan. We work to maintain an ideal environment for our collections with meticulous care, by constantly controlling the temperature and humidity in our exhibition and storage areas.

Most Japanese cultural properties are made of extremely fragile materials, such as paper and wood. Therefore, the museum must take proactive steps to preserve these objects for future generations. For this reason, in 2002, we established the Conservation Center for Cultural Properties to handle restoration projects by restorers.
# Educational Programs

We promote a variety of educational programs to impart upon audiences an understanding of the importance of cultural properties.

1. Programs for students  
   e.g.: World heritage classes (mainly for elementary school students) and educational lectures for teachers

2. Lectures and seminars  
   e.g.: Public lectures, Sunday Talks, the Shōsō-in Academic Symposium, and international symposia

3. Cooperation with universities and colleges  
   e.g.: Campus Members System, internship programs, and joint lectures with Nara Women's University and Kobe University

4. Promotion of volunteer activities  
   These activities may be changed or cancelled due to COVID-19.

# Research and Survey Activities

We consider research into cultural properties to be the most important activity supporting the foundations of the Nara National Museum as a research institution. Research findings play a part in our exhibition activities and are also reflected in the museum’s masterpiece exhibitions and special exhibitions. Reference materials collected through research are available to the public at the Buddhist Art Library. In fiscal year 2021, the Nara National Museum will conduct the following thematic research:

1. Research on collection items, items on loan to the museum, and related items
2. Research on Buddhist paintings alongside the creation of reproductions
3. Fundamental research on ancient and medieval Buddhist scriptures and sutra-copying
4. Comprehensive survey of Buddhist arts and crafts and ancient arts and crafts
5. Research on artifacts excavated from ancient tombs
6. Research on the art of sculpture in ancient and medieval Nara
7. Research on Buddhist art using optical technologies, conducted in collaboration with the Tokyo National Research Institute for Cultural Properties
8. Research to accompany special exhibitions, etc.
9. Research to contribute to educational programs in history and traditional culture
10. Research into the effects on cultural properties of storage area environments, exhibition spaces, and display cases
11. Research on collections from the perspective of cultural asset restoration
12. Research on collections from the perspective of conservation science

# Brief History

1889: Established as the Imperial Museum of Nara under the supervision of the Imperial Household Ministry
1895: First exhibition held (April 29)
1900: Renamed as the Imperial Household Museum of Nara
1914: Establishment of the Shōsō-in Department
1947: Supervision transferred to the Ministry of Education
1950: Affiliated with the National Commission for the Protection of Cultural Properties
1952: Renamed as the Nara National Museum
1958: Affiliated with the Agency for Cultural Affairs
1973: Opening of the West Wing
1980: Establishment of the Buddhist Art Library
1996: Celebration of the museum’s centennial anniversary
1998: Opening of the East Wing
2002: Opening of the Conservation Center for Cultural Properties, main building’s repository reopened as the Ritual Bronzes Gallery
2007: Integrated into the Independent Administrative Institution National Institutes for Cultural Heritage, as the Nara National Museum
2010: The main building renamed as the Nara Buddhist Sculpture Hall
2012: Nara Buddhist Sculpture Hall reopened after restoration (April 29)
Kyushu National Museum collects, preserves, manages and displays cultural properties, while also conducting research and providing educational programs. The focus is on cultural properties related to Japan’s cultural exchanges with other Asian regions.

Kyushu National Museum (Kyuuhaku) opened its doors in 2005 based on the concept of “understanding the formation of Japanese culture through the perspective of exchanges with Asia”. So far, the museum has welcomed more than 1.7 million visitors thanks to the warm support of the local population and many other people.

In FY2020, the world has undergone a lot of upheaval due to the unprecedented COVID-19 situation. Our museum has also had to close at times and cancel exhibitions. During this time, we have tried to find new ways to bring cultural properties close to people in the comfort of their own homes by stepping up the transmission of information over the internet, for example. At the same time, though, we remain committed to our core mission of protecting the valuable cultural heritage passed down by our ancestors and conveying the charm of this heritage to a wider audience. From here on too, we will aim to be a friendly, safe and enjoyable museum for everyone as we strive to achieve the goal of being “more fun than a classroom and easier to understand than a textbook.”

Exhibitions

Cultural Exchange Exhibition (Permanent Exhibition)
In order to provide our visitors with opportunities to experience new works each time they visit, Feature Exhibitions are held in the Cultural Exchange Exhibition Gallery. We also strive to create more dynamic and in-depth exhibitions through the use of videos and hands-on displays.

Feature Exhibitions
The feature exhibitions scheduled for FY2021 are as follows:
- The Colorful World of Ancient Glass An Okayama Orient Museum Collection Showcase (July 6-October 3, 2021)
- Ming Expression in Edo Temples [working title] Commemorating the 350th Death Anniversary of Buddhist Sculptor Fan Daozheng (July 17-October 10, 2021)
- Tewaza Legacy of the Ryukyu Kingdom (October 19-December 12, 2021)
- Hatsune Maki-e Lacquer Trousseau National Treasure from the Tokugawa Art Museum (January 1-30, 2022)

Special Exhibitions
- The exhibition dates are subject to change.
- We plan and hold special exhibitions that beginners can fully enjoy and connoisseurs will enjoy even more. The special exhibitions scheduled for FY2021 are as follows:
  - The Reproduction of Shosoin Treasures Encountering Tenpyo Craftsmanship through the Recreation of 8th Century Works (April 20-June 13, 2021)
  - Aesthetic Connections Art from the Japanese Imperial Collection (July 20-August 29, 2021)
  - In the Embrace of the Mountains and Seas Nature in the Japanese Imagination (October 9-December 5, 2021)
  - Commemorating the 1200th Anniversary of Saichō’s Death Buddhist Art of the Tendai School (February 8-March 21, 2022)

Collection, Preservation and Restoration of Cultural Properties

Collection
The Museum puts an emphasis on collecting cultural heritage such as fine art, decorative art, archeological materials, historical documents and folk materials that help visitors more easily understand the cultural exchanges between Japan and the rest of Asia as well as the origins of Japanese culture. Moreover, in an effort to further improve displays and exhibitions, we proactively invite temples, shrines and private individuals to donate or entrust their cultural properties to us.

Preservation
The “storage rooms” of the Museum are where important cultural properties are preserved and stored. They feature a double-walled structure, designed to prevent external air from outside the Museum from directly reaching the cultural properties, and are located in the heart of the building to minimize changes in temperature and humidity. The air-conditioning facilities also utilize a constant temperature humidistat, which allows the temperature and humidity of the storage area to be constantly maintained at more or less the same level. Additionally, the walls and ceiling of each storage room are made from materials procured from local suppliers in Kyushu, such as cedar, to help ensure an appropriate humidity level without overly depending on air conditioning devices. The Museum was constructed as a seismically isolated structure, to prevent cultural properties from damage caused by toppling over during earthquakes, for example. The building does not receive a direct impact in the event of an earthquake, and this helps protect the priceless cultural properties located inside.

Restoration
The six conservation and restoration facilities at the Museum (respectively specializing in: the production of paper and other materials used for repair; historical materials, calligraphy and documents; paintings; sculptures; archaeological artifacts; and lacquerware) work in collaboration with the Museum’s Science Division, combining traditional methods with scientific research technology. The staff, well experienced in the restoration of Japan’s designated cultural properties, conduct projects actively through discussions with curators from fields such as history, art, decorative arts, archaeology and other related areas. The latest technological equipment such as fluorescent X-ray analyzing devices and X-ray CT scanners are also being actively utilized in the scientific analysis of cultural properties to be restored.

The Museum puts an emphasis on collecting cultural heritage such as fine art, decorative art, archeological materials, historical documents and folk materials that help visitors more easily understand the cultural exchanges between Japan and the rest of Asia as well as the origins of Japanese culture. Moreover, in an effort to further improve displays and exhibitions, we proactively invite temples, shrines and private individuals to donate or entrust their cultural properties to us.
Educational and Exchange Activities

Educational Activities
1. Interactive Exhibition Gallery “Aipppa” showcases the various cultures of regions that had historically interacted with Japan. Other efforts include areas such as educational kits development, visitor experience programs, and collaborative programs with other educational institutions.
2. Educational programs in association with special exhibitions and the Cultural Exchange Exhibition (permanent exhibition)
   - Programs to improve exhibition understanding
   - Posting videos on YouTube that introduce exhibits
   - Distributing videos of workshops, etc. under the “Kyohaku at Home” program
   - Conducting of workshops
   - Production of guidebooks
3. “Kupack” - educational kits to be used in secondary schools
4. Operation of the Kyohaku-ya mobile museum
5. Campus Members System to strengthen ties with universities and other higher educational institutions
6. Educational activities based on “Kyushu National Museum’s Picture Books” for children
7. Supporting volunteer activities
   - We support various volunteer activities, including guided tours and “behind the scenes” tours, initiatives to improve the museum environment, and workshop events.

Exchange Activities
1. Implementing exchange projects in cooperation with local enterprises for more effective utilization of museum facilities.
2. Promoting exchange among Asian museums
   - Concluding exchange agreements with the Buyeo National Museum (Korea), the Gongju National Museum (Korea), The Korea National University of Cultural Heritage, the Nanjing Museum (China), the Museum of Inner Mongolia (China), Chinese Center for Cultural Exchange, Sichuan Museum (Chengdu, China), Shenyang Imperial Palace Museum (China), the Shanghai Museum, the Vietnam National Museum of History, and the Fine Arts Department of the Ministry of Culture (Thailand)
3. Hosting international symposia and lecture events
4. These activities may be changed or cancelled due to COVID-19.

Research and Survey Activities
The results of research concerning our main theme of “Cultural Exchange between Japan and Asian Countries” and scientific research on conservation and restoration of cultural properties are actively utilized for our collection, preservation and exhibition activities. Part of our research is financially supported by government-funded Grants-in-Aid for Scientific Research (KAKENHI) and other private grants for cultural activities.
- Research on using X-ray computed tomography (CT) scanning to analyze the structure of cultural heritage artifacts
- Research on improving and expanding the system for safeguarding underwater archeological sites
- Research on educational outreach programs aimed at enhancing museum visitors’ understanding through the use of explanatory panels, booklets, workshops, etc. tailored to exhibition themes
- Research on the conservation and restoration of Japanese and Asian cultural heritage in museums
- Research on the continued use of Integrated Pest Management (IPM) in museum crisis management

Publications
The museum produces publications to promote a wider understanding of our activities
1. Tofu-seisei (Research Bulletin): This bulletin summarizes the results of the Museum’s investigative research efforts (published annually)
2. Asiage (Quarterly magazine): An information magazine focusing on the Cultural Exchange Exhibition and special exhibitions (released quarterly)

Brief History
1994: The Agency for Cultural affairs (ACA) organized the “committee to investigate the establishment of a new concept-based museum (the Committee)”.  
1996: ACA decided the new museum should be established as the Kyushu National Museum (provisional title) in Dazaifu, Fukuoka. 
1997: The Committee drew up the “basic framework for Kyushu National Museum (provisional title)”. 
1999: The Committee made the “basic plan for Kyushu National Museum (provisional title)”. 
2000: ACA, Fukuoka Prefecture, and the Kyushu National Museum Promotion Foundation (the Foundation) jointly formulated the “basic construction design” for the Museum. The ACA and Fukuoka Prefecture jointly organized “experts conference for the establishment of Kyushu National Museum (provisional title)”. 
2001: ACA, Fukuoka Prefecture and the Foundation jointly completed the “basic exhibition design”. The Independent Administrative Institution National Museum (the National Museum) established the “preparatory office for the establishment of the Kyushu National Museum”.
2002: ACA, Fukuoka Prefecture and the Foundation jointly launched the “construction works (the first year of a three-year plan)”. 
2003: The National Museum and Fukuoka Prefecture launched the “preparation of the exhibitions (the first year of a two-year plan)”. 
2004: ACA, Fukuoka Prefecture and the Foundation completed the “construction works”. 

ACA, the National Museum and Fukuoka Prefecture officially named the Museum as “Kyushu National Museum”. 
2007: The Kyushu National Museum was merged into the IAI National Institutes for Cultural Heritage (NICH). 
2008: Japan-China-ROK Trilateral Summit Meeting was held at the Kyushu National Museum. 
2012: Kyushu National Museum welcomed its 10 millionth visitor. 
2015: 10th anniversary

The land and buildings are co-owned by Fukuoka Prefecture and the institution.
The Tokyo National Research Institute for Cultural Properties supports the work of the government in the administration of cultural properties by conducting various research, from basic and systematic to practical and advanced, into all kinds of cultural properties, both tangible and intangible. The Institute actively disseminates the results of this research both domestically and internationally. It also provides guidance and advice to regional public bodies and other stakeholders concerning the preservation of cultural properties. Furthermore, it pursues international cooperation projects related to the conservation of cultural heritage in Asia and other regions of the world, including international research initiatives, human resource development, and the transfer of conservation and restoration technologies.

The Institute’s survey and research work currently focuses on several priority areas. Firstly, the Institute is working to develop an archive of research results and basic data, etc. accumulated by the Institute over the years. Also, as a part of the Independent Administrative Institution, National Institute for Cultural Heritage, the Institute aims to play an integral role in the area of conservation and preservation through research on the conservation, preservation and publication of museum materials. Furthermore, the Institute collects basic data and prepares visual records of intangible cultural properties from across Japan, with a focus on festivals and performing arts like Noh, for example, with this material then made available to the public.

In addition, the Institute houses the secretariat of the Japan Consortium for International Cooperation in Cultural Heritage, an organization that plays a central role in ensuring Japan makes a coordinated and effective contribution to the conservation of cultural heritage overseas. The Institute also operates as the East Japan headquarters of the Cultural Heritage Disaster Risk Management Center.

- **Organization**

  - **Department of Art Research, Archives and Information Systems**
  The Department of Art Research, Archives and Information Systems collects, preserves, collates and publicizes information relating to cultural properties, and also undertakes research on the development of effective methods for the transmission of information, with the aim of expanding the scope of cultural property archives. At the same time, the Department also engages in issues of contemporary relevance when it comes to the study of cultural properties and art history research, for example. The Department also takes the results obtained in these activities as the basis for managing the information systems and public relations activities of the Institute as a whole.

  - **Department of Intangible Cultural Heritage**
  The Department of Intangible Cultural Heritage conducts basic research useful for the conservation and transmission of intangible cultural heritage, focusing in particular on Japan’s intangible cultural heritage, which includes intangible cultural properties, intangible folk-cultural properties, and techniques for preserving cultural properties. Audiovisual documentation, a significant method for the conservation of intangible cultural heritage, is conducted and new methods of documentation are also investigated.

  - **Center for Conservation Science**
  The Center for Conservation Science implements surveys of cultural property materials, construction and techniques, and collects information that contributes to a more in-depth understanding of cultural properties. In addition, it conducts research into the improvement of restoration materials and techniques and into maintenance management methods. The Center also implements activities relating to the adoption of new survey techniques. Moreover, the Center works closely with those who are actually engaged in the conservation and restoration of cultural properties and their owners.

  - **Japan Center for International Cooperation in Conservation**
  The Japan Center for International Cooperation in Conservation renders assistance to various countries in Asia and other regions of the world through the conservation and restoration projects of cultural heritage including technical transfer and human resource development. It also promotes the cooperative networks with other relevant institutions, domestic and international, by organizing seminars and meetings. Collection and dissemination of information on cultural heritage and its protection systems is another important task of the Center.

  The Center is commissioned to manage the secretariat for the Japan Consortium for International Cooperation in Cultural Heritage.
Seminar, Advice, and Guidance

The Institute conducts various training seminars and provides professional advice as well as technical guidance for the protection and utilization of cultural properties. These include the International Course on Conservation of Japanese Paper, annual training for museum curators in charge of conservation, advice on safeguarding intangible cultural properties, inspection assistance and advice on the museum environments, and investigation and advice concerning the conservation of cultural properties.

Graduate School Education and Public Lectures

The Institute provides the results of its research to the public aiming at nurturing the next generation of experts and raising public interest. The Institute has collaborated with the Tokyo University of the Arts since 1995 and is in charge of its Preventive Conservation Course. In the public lectures, the Department of Art Research, Archives and Information Systems, and the Department of Intangible Cultural Heritage present their research achievements every year.

Dissemination of Research Information

The Institute actively communicates and publicizes the results of its different activities including research studies and international cooperation projects through academic conferences, workshops and symposiums, for example. It also updates its website regularly and it releases publications such as its ‘Annual Report,’ its ‘Outline,’ and ‘Tobunken News.’

Publications

The Institute publishes periodicals such as The Bijutsu Kenkyu (The Journal of Art Studies), Yearbook of Japanese Art, Research and Reports on Intangible Cultural Heritage, and Science for Conservation. It also publicizes the research and study results through the publication of academic reports and other means.

Brief History

1930: Established as the institute of Art Research, an auxiliary organization of the Imperial Academy of Fine Arts
1947: Affiliated with the National Museum
1950: Affiliated with the National Commission for Protection of Cultural Properties
1952: Reorganized and renamed as Tokyo Research Institute of Cultural Properties
1954: Renamed as Tokyo National Research Institute of Cultural Properties
1956: Affiliated with the Agency for Cultural Affairs
2000: Construction of new offices
2001: Restructured as the Independent Administrative Institution, National Research Institute for Cultural Properties Tokyo
2007: Integrated into the Independent Administrative Institution, National Institutes for Cultural Heritage, as Tokyo National Research Institute for Cultural Properties
As an institution engaged in the comprehensive research of tangible cultural properties, Nara National Research Institute for Cultural Properties researches cultural heritage (such as historical materials and buildings) and conducts excavations, primarily at the Nara and Fujiwara Palace sites. We exhibit and publish the results of this research, for example, and we also carry out research and exhibition programs with the aim of preserving Asuka culture. The Institute also strives to gather and publicize data on archaeological sites through the ‘Comprehensive Database of Archaeological Site Reports in Japan.’

All these activities make a significant contribution to cultural heritage research, both nationally and internationally, and they have resulted in academic exchanges with China, South Korea and other countries across Asia. Furthermore, the Institute endeavors to develop new research technologies and methods to conserve, restore and maintain historical sites. We then provide guidance and training to local government specialists, for example, with these technologies and methods also utilized to protect historical sites across the world.

From here on, we hope to make further contributions to the conservation and utilization of cultural properties by pursuing interdisciplinary joint research in other fields too.

**Department of Imperial Palace Sites Investigations (Heijo)**

This Department is in charge of excavation and research at the Nara Palace Site (Special Historic Site), where the imperial palace and government offices were located in the Nara period (710-784). Systematic research has been in progress since 1959 and over one-third of the 130 hectare site has been excavated and surveyed so far. Finds at the sites of the palace and ancient temples (such as architectural remains, wooden tablets used for writing, earthenware vessels and ceramic tiles) have been verified with reference to historical records, with the Department’s empirical research on the Nara period winning widespread plaudits. The Department also provides the results of its research on the Nara Palace Site to the Ministry of Land, Infrastructure, Transport and Tourism (MLIT) as basic data to support the maintenance of the national Nara Palace Site Historical Park.

**Department of Imperial Palace Sites Investigations (Asuka and Fujiwara)**

The Department is in charge of excavation and research in the Asuka and Fujiwara area, Japan’s political, economic and cultural center during the period between the 7th and early 8th centuries when the Japanese state was coming into being. The sites in the Asuka district include palaces and residences of elite clans, the sites of temples such as Asukadera (the oldest Buddhist temple in Japan), a workshop that produced ancient coins and glass, a water clock, and various tombs. To the north lies the site of the Fujiwara capital, the first large-scale planned city in Japan, covering a vast area of more than five square kilometers. The interdisciplinary, empirical research being conducted based on the excavations of these sites in the Asuka and Fujiwara areas has made a major contribution towards helping to clarify the historical record of the Asuka period.
Center for Archaeological Operations

The Center for Archaeological Operations consists of four research sections, which undertake pollution control, survey, research, and conservation to the extent that historical-cultural heritage, as well as providing training activities based on the Center’s research results, etc. The Conservation Science Section undertakes a wide range of research, from fundamental research to practical research, relating to surveys and analysis of materials and structures of archaeological objects and the in-situ display of archaeological remains, etc. The Environmental Archaeology Section undertakes research relating to the simulation of ancient environments and how animals and plants were used in ancient times, etc. through surveys of and research on the remains of flora and fauna. The Dendrochronological Dating Section uses the methods of dendrochronology to advance applied research on techniques for determining the age and origin of wooden cultural heritage items, and for determining how they were made, etc. The Archaeological Research Methodology Section develops surveying and measurement techniques, with a particular focus on the surveying and measurement of archaeological data, with the aim of furthering the development and effective utilization of methods for researching cultural heritage and archaeology. This Section also undertakes disaster archaeology surveys and research.

Asuka Historical Museum

The Asuka Historical Museum, a facility that showcases the history and culture of the Asuka Period, was established in 1975 following a decision made by the Japanese Cabinet. Besides the Museum’s regular exhibitions, which have thematic displays relating to palaces, stone structures, tombs and temple sites, etc., visitors can also see the reconstructed portion of the eastern cloister of Yamada-dera Temple and objects excavated in and around this site. The Museum holds Special Exhibitions and Feature Exhibitions, with displays focused on the history and cultural heritage of the Asuka Period, displays that present the results of the wide-ranging research undertaken by the Nara National Research Institute for Cultural Properties in an easy-to-understand way, and displays featuring photographs of cultural heritage items, etc. The Museum also hosts lectures and participatory activities, etc.

International Academic Exchange

The Nara National Research Institute for Cultural Properties contributes to international exchange and collaboration through activities such as joint research, expert exchange, conservation and training, and by using its expertise and technology, and the Networking Core Centers for International Cooperation on the Conservation of Cultural Heritage project contributes directly to cultural affairs. Furthermore, the Agency for Culture and Tourism is involved in international contribution projects related to cultural properties and conducted by other institutions such as ACCU (Asia-Pacific Cultural Centre for UNESCO). In recent years, the Institute’s main projects include: (1) joint research with the Chinese Academy of Social Sciences involving comparison of ancient capital sites; (2) joint research with the Henan Provincial Institute of Cultural Heritage and Archaeology, China into artifacts, etc. excavated from kiln sites; (3) joint research with the Liaojing Provincial Institute of Cultural Heritage and Archaeology, China into artifacts belonging to the culture of the Former, Later, and Northern Yan; (4) joint research with the National Research Institute of Cultural Heritage, Korea, into the formation and processes of development of ancient Japanese and Korean culture, etc., as well as exchanges of personnel on excavation sites; (5) research, conservation, and restoration, undertaken with Cambodia’s Authority for the Protection and Management of Angkor and the Region of Siem Reap (APSARA), at the Western Prasat Ton site, as well as a human resource development project; (6) international dissemination of Japanese archaeology through online resources and publications, in collaboration with the Sainsbury Institute for the Study of Japanese Arts and Cultures in the U.K. We are also working on technology transfer and human resource development for the National Museum of the Republic of Kazakhstan through a Networking Core Centers for International Cooperation on the Conservation of Cultural Heritage project commissioned by the Agency for Cultural Affairs.

Publications

Nara National Research Institute for Cultural Properties publishes periodicals such as Overview of Nara National Research Institute for Cultural Properties, NABUKKEN NEWS, CAO NEWS Centre for Archaeological Operations, and NABUKKEN RONSO. It also publishes the results of various additional research studies.

Brief History

1952: Nara Cultural Properties Research Institute (consisting of the General Affairs Division, the Historical Research Division, the Architecture Research Division, and the Art Research Division) is established at 50 Kasugano-cho, Nara City, as an auxiliary organization of the National Commission for the Protection of Cultural Properties.
1956: Renamed as the Nara National Cultural Palace Site in Sakihigashi-machi, Nara City.
1960: The office of the Heijo Palace Site Investigations opened in the former Nara Place Site in Sakihigashi-machi, Nara City.
1963: Heijo Palace Site Investigation Division is established.
1968: Affiliated with the Agency for Cultural Affairs (established 1968).
1973: Finance Section, Asuka-Fujiwara Palace Site Investigation Division, and Asuka Historical Museum established.
1974: Department of General Affairs and the Center for Archaeological Operations established.
1975: Asuka Historical Museum opened at Okyama in Asuka Village, Nara.
1988: New headquarters building of Asuka-Fujiwara Palace Site Investigation Division built at 94-1 Kimimoto-cho, Kashihara City.
2010: Relocated to temporary premises located at 2471 Saki-cho, Nara City, while the original head office site is being redeveloped.
2018: Following the completion of renovation work on the Institute’s headquarters building, the Institute was relocated from temporary premises back to the renovated headquarters building.

Outline of the National Institutes for Cultural Heritage, 2021
**Activity Plan for FY 2021**

IRCI promotes research as an international research hub for ICH safeguarding in the Asia-Pacific region while contributing to its enhancement using Japan’s long-term experience in cultural heritage management. Its activities focus on:

1. Promoting Research for ICH Safeguarding
2. Conducting Research on Endangered ICH
3. Cooperating with Sakai City to Promote ICH

In FY2021, IRCI will conduct the following projects.

- **Promoting Research for ICH Safeguarding**
  1. Research Data Collection
     In the previous project, IRCI collected research data, predominantly in consultation with individual researchers. In FY2019-2021, by utilising the experience, IRCI has systematically and sustainably collecting information on the UNESCO Convention for the Safeguarding of ICH and related research. To this end, it has established a collaboration mechanism in cooperation with designated research institutions in the Asia-Pacific region. The collected data from counterparts are gathered by IRCI and added to the IRCI’s research database (https://www.irci.jp/ichdb/). Then, they are made public. The database comprises approximately 2,500 pieces of information collected from 43 countries in the Asia-Pacific region as of March 2021.
  2. Research on ICH’s Contribution to Sustainable Development – Education and Community Development
     IRCI launched a two-year project to investigate ICH’s contribution to SDG4 (quality education) and SDG11 (sustainable cities and communities) in FY2020. In FY2020, IRCI implemented case studies in cooperation with three non-governmental organisations (NGOs) from Bangladesh, Indonesia, and Kyrgyz. In FY2021, the case studies conducted in FY2020 will be analysed and verified through further case studies with these NGOs.
  3. Researchers Forum
     IRCI has organised the Researchers Forum every other year since FY2017. To commemorate the 10th anniversary of its establishment, IRCI will organise the third forum. This forum will also reflect on IRCI’s research projects over the past ten years and IRCI will utilise them for its future orientation. An academic symposium consisting of presentations and panel discussions will be held. Speakers will be selected among researchers from IRCI partner institutions, researchers in the field of ICH, who have collaborated in past programmes.
Conducting Research on Endangered ICH
Research on ICH Safeguarding and Disaster Risk Management

Asia-Pacific countries are frequently exposed to various natural hazards, including earthquakes, tsunamis, cyclones, floods, and volcanic eruptions, all of which have a severe impact on society. Given such circumstances, IRCI implemented a preliminary research and organised an international workshop to discuss the roles of ICH in disaster preparedness, disaster mitigation, and disaster resilience. As a new project in FY2020-2022, the current state of research on ICH and DRM since 2018 will be studied. Ultimately, the research aims to categorise the disasters into types and provide practical recommendations, including models of DRM and ICH safeguarding measures for each category.

Cooperating with Sakai City for Promoting ICH
IRCI widely disseminates information and a clear vision of ICH to the Japanese people, in addition to providing them with various opportunities to learn about ICH in cooperation with Sakai City. These opportunities include permanent displays of IRCI panels at the Sakai City Museum.

In FY2021, IRCI will organise a Researchers Forum as a commemorative event of the 10th anniversary of its establishment (please refer to “3. Researchers Forum” on the left page). Following the Forum, IRCI will cooperate in a public event on ICH organised by Sakai City to further spread public understanding of the 2003 Convention.

Communications and Publicity
The FY2019 version of the IRCI Brochure, which illustrates the latest research projects with various pictures, was published in English and Japanese. It has been distributed to UNESCO headquarters, local offices, Category 2 Centres, and the National commissions for UNESCO in each country, as well as to research institutes and universities, both at home and abroad. In addition, IRCI regularly updates its mobile friendly website and frequently releases new information regarding its research activities and ICH. Further, IRCI published the following publications in FY2020 to disseminate information and the results of its activities.

1. Guidelines for “ICH’s contribution towards SDGs” project for formal education in Vietnam (English)
2. Guidelines for “ICH’s contribution towards SDGs” project for non-formal education in the Philippines (Subanen)
3. Project report on “ICH’s contribution towards SDGs” project (English) (PDF only)
4. Project report on “Study of Emergency Protection of ICH in Conflict-Affected Countries in Asia” (English) (PDF only)

Brief History

Oct. 2009: Establishment of IRCI authorized at the UNESCO General Conference
Aug. 2010: Agreement for the establishment of IRCI concluded between the Japanese Government and UNESCO
Mar. 2011: Agreement for the opening of IRCI concluded between Sakai City and the National Institutes for Cultural Heritage
Apr. 2011: Establishment of the preparatory office for IRCI
Oct. 2011: Official opening of IRCI
Dec. 2018: Agreement for the continuation of IRCI concluded between the Japanese Government and UNESCO
Mar. 2019: Agreement for the continuation of IRCI concluded between Sakai City and the National Institutes for Cultural Heritage
